United States

Summary

I recently graduated high school three semesters early and will be starting college to study Artificial Intelligence. Finishing early gave me the chance to focus on my goals and learn at my own pace. I'm especially interested in how AI can be used in everyday life and enjoy exploring new ideas and tools in this field.

Education

San Joaquin Delta College

Computer Science · (January 2024 - January 2025)

California Virtual Academy @ San Joaquin

Highschool · (August 2021 - January 2024)
